ARE YOU READY FOR WINTER?

Ice Melt

Granules effective to -30°C

Ice Melt has been developed for use on paths, drives and pavements during the winter months to lessen the risk of falls due to ice build-up. Melts ice and prevents re-freezing down to -30°C*

• Does not damage concrete unlike salt

- Will not stain/corrode carpets and upholstery
- Easy carry & store buckets
- Ice Melt Granules are up to 6 times more effective than regular rock salt
- Exothermic properties which results in an increase in temperature, when in contact with ice and snow.
- Ideal for use outside house builder show homes and office reception areas.
- Best applied by hand wearing nitrile gloves for maximum economy. Severe depth ice will require more granules than quoted below†.

* Based on Manufacturers in-house test results

ICE MELT	15kg tub	Treats up to 120 square metres†
----------	----------	---------------------------------

Salt & Grit Bins

Suitable for use in car parks, company premises and house builders' sites.

- Manufactured from Hi-viz yellow, tough, durable plastic
- The rigid structure can withstand heavy contents, the weather, roadside bumps and knocks.
- Easily stackable for storage and transporting with forkliftable channelled base.

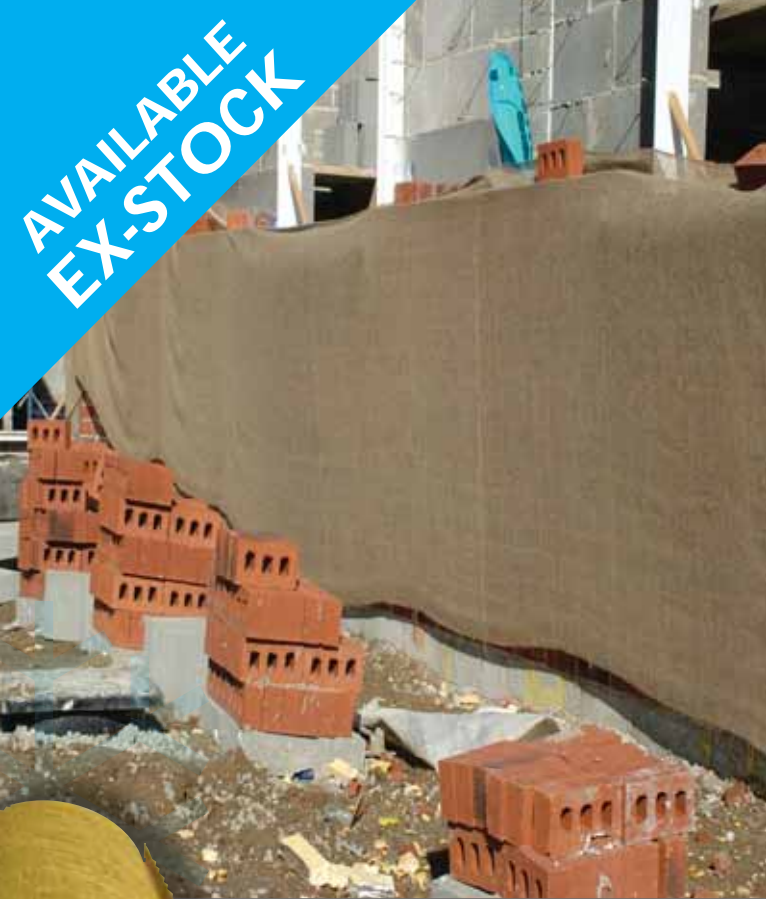

755 x 790 x 500mm	6 cubic feet (169ltr)
730 x 785 x 500mm	10 cubic feet (285ltr)
