

OCKWELLS

Ock*Props*

Ock*Props* are fast and easily installed in occupied offices, shops, public buildings and hospitals to close off working areas to office staff and the public. Ock*Props* can be used to form moveable corridors and walls. Standard or flame retardant polythene sheet can be used to contain dust and dirt and keep people away from working areas whilst still maintaining access for trades and materials.

Ock*Prop* Blue is an adjustable height builder's prop with a clever ratchet system that makes it an easy one handed operation to position and extend to the ceiling.

OCKPROP BLUE

Extending from 1.15m to 2.9m

Weight capacity approx. 40kg

Ock*Prop* Orange is a telescopic steel pole with a strong ratchet mechanism and screw adjustable foot/head plates that are quick and simple to use. Extend the prop to the desired height, lock the mechanism and then twist the central pole to lock tight.

OCKPROP ORANGE

Extending from 2.1m to 3.95m

Weight capacity approx. 60kg

Ock*Prop* Orange 2m Extension Poles are available to extend poles up to 5.95m by adding to the foot of the 3.95m pole.

OCKPROP ORANGE EXTENSIONS

2m Extensions

Polythene *Sheet*

Flame-retardant Polythene is manufactured to LPS1207 and is a fully accredited product. Uses of flame-retardant films include covering office furniture, shop stands, gondolas and is a cost effective solution to flame-retardant temporary screen walling when used with OckProps. Clear Standard Film can also be used in temporary screen walling and where an item needs to be covered but seen.

POLYTHENE SHEET

STANDARD

125mu 4 x 50m (clear)

250mu 4 x 25m (clear)

FLAME RETARDANT LPS 1207

125mu 4 x 50m (white or orange)

Tack*Mats*

Clean off mats can be placed at the entrance of working areas to make sure dust is not transferred in to clean areas. Contact one of our sales offices for further details or check out our web site at www.ockwells.co.uk.

TACKMATS

Low Profile 800mm x 600mm 60 sheets

HEAVY DUTY TACK MATS

Small 610mm x 910mm 36 sheets

Medium 110mm x 910mm 36 sheets

Large 1520mm x 910mm 36 sheets

Zip*Doors*

ZipDoors Zip strips are self adhesive backed and can be adhered to standard and flame-retardant polythene. Zip strips can be used in pairs to form large access for trades and materials in to work areas.

ZIP DOORS

Each zip is approx 2.0m long (2 zips per pack)
